SINA Tile was opened and operated in the second half of 1995 with a nominal capacity of 4,000,000 m² wall tiles. Aiming at meeting the needs of customers and preparing a full basket of products and by performing several development plans in producing porcelain, floor and decorative tiles with a considerable variety of dimensions, the company increased its production up to 10,000,000 m².

SINA Company has provided the possibility of producing luxurious products with perfect qualities by utilizing the most advanced and up to date machinery and equipment in ceramic industry.

Use of local and foreign high quality raw materials, utilization of several advanced tile and ceramic laboratories, design of new products, research and development (R&D) and contribution and diligence of experienced and specialized experts in ceramic industry have introduced Sina Company as the superior local and foreign producer.

Establishment of a wide range of classic and modern designs derived from nature by utilizing modern printing techniques (digital printer) enables you respected customers to experience a beautiful and desirable environment according to your taste.

As usual, the objective of the great and diligent family of Sina Company is to fulfill the motto "We Change Soil to Gold by Art".

La société publique de Carreau et Céramique de Sina (Sina) a été ouverte et exploitée au second semestre de 1995 avec une capacité nominale de 4 000 000 m² de carrelage mural.

Afin de répondre aux besoins des clients et de préparer une gamme complète de produits, la société a augmenté sa production de plus de 10,000,000m² en réalisant plusieurs plans de développement pour la production de porcelaine, carrelage de sol et carrelage décoratif d'une grande variété de dimensions.

Sina a fourni la possibilité de produire des produits de luxe avec des qualités parfaites par des machines et des équipements les plus avancées et à jour utilisés dans l'industrie de la céramique.

L'utilisation de matières premières locales et étrangères de haute qualité, l'emploi de plusieurs carreaux et céramiques et des laboratoires avancés, la conception de nouveaux produits, la recherche et le développement (R & D) et la contribution et la diligence des experts expérimentés et spécialisés dans l'industrie céramique ont introduit la Société comme le meilleur producteur à l'intérieur et à l'étranger.

L'établissement d'une large gamme de modèles classiques et modernes dérivés de la nature en utilisant des techniques modernes d'impression (imprimante numérique) permet à nos chers clients de vivre un environnement beau et souhaitable selon leur goût.
